CAREER OBJECTIVE

As a B.Tech 4th year Electronics Engineering student with a passion for software development, I aim to leverage my understanding of core electronics and programming skills in C,C++,coreJava , python to contribute to innovative software projects Apply my problem-solving abilities in team environment.

WORK EXPERIENCE

Electronics And Communication Engineering • Internship Jun 2026 - Jul 2026
NTPC, Unchahar

Learnt DCS and PLC architecture for real-time boiler and turbine automation.Assisted in calibrating and troubleshooting field instruments like transmitters and thermocouples.Conceptualized control loops by analyzing closed-loop feedback and safety interlocks.
Compiled a technical report on plant C&I infrastructure and maintenance protocols.

EDUCATION

B.Tech, Electronics and Communication 2023 - 2027
Dr. A.P.J. Abdul Kalam Technical University, Lucknow, Uttar Pradesh

CGPA: 8.00/10

Senior Secondary (XII), ICSE 2023
Science

NEW VISION SCHOOL

Percentage: 83.25%

TRAININGS / CERTIFICATIONS

Introduction To Cybersecurity
Jul 2025 - Aug 2025

CISCO, Virtual

Provided an overview of systems security and key cybersecurity concepts. Explained various types of cyber threats and defense mechanisms.

Data Analytics With Python
Jan 2025 - Apr 2025

NPTEL, Virtual

"Completed the NPTEL 'Data Analytics with Python' certification program, gaining comprehensive knowledge in data analytics techniques and their application using Python. Developed proficiency in statistical analysis, hypothesis testing, and data visualization. Applied learned concepts to real-world data analysis scenarios, enhancing decision-making capabilities through data-driven insights."

Career Essentials In Generative AI
Nov 2023 - Dec 2024

LinkedIn Learning With Microsoft, Virtual

PROJECTS

IR Proximity Sensor
Nov 2024 - Dec 2024

Developed a proximity sensor as a 2nd year mini project. Utilized the principle of detecting the presence of objects without physical contact. Compared photodiode voltage to a reference to trigger an output LED when reflected light exceeded the threshold.

SKILLS

- C Programming
- Python
- Java
- Problem Solving
- Time Management
- English Proficiency (Spoken)

- C++ Programming

EXTRA CURRICULAR ACTIVITIES

- Kho Kho sports and Madhubani paintings.

ADDITIONAL DETAILS

- Organized a quiz competition for 1st year B.Tech students, demonstrating proper time management and team collaboration.
